Subject: Information - Maricopa Unified School District

Commissioner Mays – I want to thank you and Commissioner Pierce for holding the Public Hearing in Maricopa concerning the proposed construction projects associated with the expansion of the Union Pacific Rail Line. As you requested, I have included the information related to affected school sites and approximate number of bus crossings over State Route 347 in a single school day. Presently the three affected schools would be Maricopa High School, Maricopa Wells Middle School and Maricopa Elementary School. All of these sites have family residences that would be located within a school boundary that is bisected by the rail line. Total enrollments for all three sites are estimated at 2,912 students. Additionally the District's Transportation Department stated that school vehicles cross the railroad intersection at State Route 347 153 times each school day. I trust this information will be helpful as the Commission continues their work. Please do not hesitate to ask for additional clarifications. Tom
